Key Insights Summary

A high-level synthesis of your Dashboard.

The brand published 292 posts: 196 on Facebook, 80 on Instagram, and 16 on Twitter. It drove 167,227 engagements, led by Instagram with 143,292, followed by Facebook with 23,717 and Twitter with 218.

Content generated 3,645,885 impressions: 2,717,004 on Instagram, 926,035 on Facebook, and 2,846 on Twitter. The brand ended with 95,483 followers, adding 3,245 overall for 3.4% growth; Instagram grew 4.99%, Facebook 1.43%, and Twitter 0%.

Total video views reached 3,053,877, including 2,629,909 on Instagram, 423,043 on Facebook, and 925 on Twitter. Instagram outperformed on engagement and video consumption, while Twitter underperformed in scale despite a 7.66% engagement rate per impression.

Observations

Prioritize Instagram resources because 80 posts generated 143,292 engagements, 2,717,004 impressions, and 2,629,909 video views, making it the strongest platform for scalable audience interaction.

Expand short-form video production on Instagram and Facebook, which together delivered 3,052,952 of the 3,053,877 total video views.

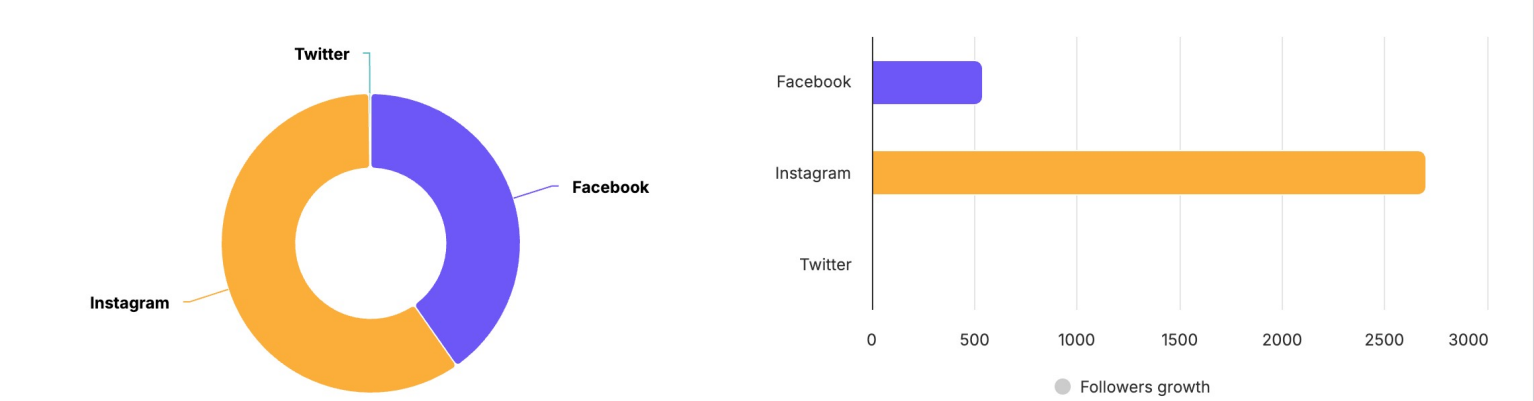

Maintain Facebook's increased publishing activity but improve efficiency: 196 posts produced 23,717 engagements and 926,035 impressions, versus Instagram's 80 posts generating 143,292 engagements and 2,717,004 impressions.
